

August 5, 2014

Examination of the names of Palestinians killed in Operation Protective Edge – Part Two¹

Hussein Abd al-Qader Muhaisen (Abu Ubeida), operative in the Al-Quds Battalions, the PIJ's military wing (saraya.ps). The PIJ stands out in terms of the relatively high number of losses that it suffered, the second highest after Hamas.

The findings of the current examination

1. This document is **the second** in a series of publications of the Intelligence and Terrorism Information Center (ITIC) examining the names of the Palestinians killed in Operation Protective Edge. The goal is to ascertain the identity of terrorist operatives and non-involved citizens, and to examine the ratio between them.
2. To date, the ITIC has examined **the first 300 names** on the Palestinian Health Ministry's lists. In its second examination, the ITIC **examined another group of 150 names of Palestinians** killed between **July 12 and July 19, 2014**, in the order in which the names appear on the Palestinian Health Ministry's lists (see Appendix C). The present examination also includes Palestinians killed during the first two days of the IDF's ground operation in the Gaza Strip (which began on July 17, 2014).

¹ Further to the ITIC Information Bulletin from July 28, 2014: "Preliminary, partial examination of the names of Palestinians killed in Operation Protective Edge and analysis of the ratio between terrorist operatives and non-involved civilians killed in error."

3. Based on our examination of the second group of 150 names on the Palestinian Health Ministry's list, we reached the following findings:

- a. **We identified 69 names of Palestinians killed as terrorist operatives** (for details about them see the table in Appendix A). In addition, we identified two terrorist operatives killed during the period that the Health Ministry's list refers to, but whose names do not appear on the Health Ministry's lists. **We identified 71 terrorist operatives in total.**
- b. Of the 71 names of terrorist operatives that we identified, **we found 39 photos of operatives** (for photos of operatives, see Appendix B).
- c. **We identified 66 names** that appear on the Health Ministry's second list as **non-involved civilians.**
- d. **Fifteen names of dead Palestinians that appeared on the list have not yet been identified.** At this stage we cannot determine whether they were terrorist operatives or non-involved civilians.

4. Of the 137 names of those killed who have been identified (about 90% of the names on the list that was examined), **71 were terrorist operatives, comprising about 52% of the names.** In addition, **66 non-involved civilians were identified, comprising about 48%.**

5. Below is a breakdown of 71 terrorist operatives identified by us, by organizational affiliation:

- a. **39 Hamas / Izz al-Din al-Qassam Brigades** operatives
- b. **16 PIJ / Al-Quds Battalions** operatives
- c. **Seven** operatives of **Fatah** terrorist networks
- d. **Four** operatives of an independent terrorist network by the name of the **Al-Mujahedin Battalions**
- e. **One** Popular Resistance Committees (PRC) operative
- f. **Four** terrorist operatives whose organizational affiliation is unknown

Summary of the findings to date

6. Weighting the findings of the current examination and the previous findings yields the following results:

- a. **We identified 142 names as terror operatives (71+71).**
- b. **We identified 147 names as non-involved civilians (66 +81).**
- c. **The identity of 18 names is unknown at this stage (15+3).** Therefore, it is not yet possible to determine whether they were terrorist operatives or non-involved civilians.

7. Due to Hamas's policy of concealment and deception, we believe that **the number of terrorist operatives that we have identified, based on the lists examined to date, is minimal.** This is because we take into account **that there are terrorist operatives who do not appear in the Palestinian Health Ministry's records** (either deliberately or because their bodies have not yet been recovered). In any case, out of all **289 names of those killed** that we were able to identify on both lists, **terrorist operatives constitute about 49% and non-involved civilians constitute about 51% of the names.** This ratio may vary as the ITIC continues to examine the names of those killed.

How does the Palestinian Health Ministry compile its list of names of Palestinians killed? (Further to the previous document)

8. In our examination of the names of the Palestinians who were killed, we encountered and still encounter many difficulties in identifying them. This is due to the reporting method of the Palestinian Health Ministry, which is an important factor **in Hamas's policy of concealment and deception.** While it is Hamas that sets the policy, the one who compiles and publishes a daily list of names of those killed in Operation Protective Edge is **Dr. Ashraf al-Qudra, spokesman for the Hamas-controlled Palestinian Health Ministry in the Gaza Strip.**

9. **Dr. Ashraf al-Qudra**, 41, resident of Khan Yunis, the father of two sons and two daughters, studied medicine in Pakistan and at hospitals in the Gaza Strip. He recently received his MD. To the best of our knowledge he was a Hamas activist in the 1990s and, in our assessment, has continued to be affiliated with Hamas since

then.² A few years ago he was appointed spokesman for the Health Ministry and was given the important and sensitive (from Hamas's perspective) task of compiling and publishing lists of those killed in IDF operations. Dr. Al-Qudra is often interviewed in the media. His remarks are blatantly³ hostile to Israel and are consistent with Hamas's propaganda line.

Wishes posted by Dr. Ashraf al-Qudra to the network of Palestinian hackers known as the Electronic Jihad (Dr. Ashraf al-Qudra's

Dr. Ashraf al-Qudra, spokesman for the Palestinian Health Ministry in the Gaza Strip (Dr. Ashraf al-Qudra's Facebook page, September 16, 2012)

10. Dr. Al-Qudra compiles the daily lists of those killed in Operation Protective Edge **in his office at Shifa Hospital** (which also serves as the headquarters where Hamas leaders are based). To prepare the lists, **Dr. Al-Qudra has a team of assistants** who update him 24 hours a day about Palestinians killed in Israeli attacks (maannews.net; AFP, July 27, 2014). In our assessment, this team utilizes **reports from the field** in various areas in the Gaza Strip. It is, therefore, **an entire system that operates continuously and is governed by Hamas policy**. This system - from its head to the operatives in the field - make an effort to **“efface” or obscure the identity of the**

² Dr. Ashraf al-Qudra told the Palestinian and foreign media that he does not see himself as affiliated with Hamas, and insisted that his work is “a humanitarian duty” (maannews.net; AFP, July 27, 2014).

³ For example, on his Facebook page on July 27, 2014, Ashraf al-Qudra posted words of encouragement and holiday wishes (with the start of Eid al-Fitr) to a network by the name of the **Electronic Jihad**. Dr. Al-Qudra noted that he hopes that the network that calls itself the Electronic Jihad vanquishes all its enemies in the electronic, medical and knowledge war (Dr. Ashraf al-Qudra's Facebook page, July 27, 2014). The Electronic Jihad is a network of Palestinian hackers in the Gaza Strip whose goal is to “take revenge against Israel” by hacking Israeli websites (according to the Facebook page launched in January 2014 by the Electronic Jihad).

terrorist operatives who were killed and to present those killed as Palestinian martyrs, civilians who were deliberately killed by Israel.⁴

11. During Operation Protective Edge, Dr. Ashraf al-Qudra holds a press conference every evening at Shifa Hospital, during which he mentions the number of casualties and publicizes their names. His lists are uploaded to Twitter and Facebook pages and receive extensive media coverage. They **serve as a sole source of information for the Arab, international and even Israeli media** concerning the number and identity of those killed during the operation. Moreover, **human rights organizations, UN agencies and international organizations** also rely on the information disseminated by Dr. Al-Qudra.

12. The number of fatalities and their identity, distributed by Dr. Al-Qudra and his team and by other Hamas officials or those working in the service of Hamas, **create the impression that only innocent Palestinian civilians were killed in Operation Protective Edge**. Dr. Ashraf al-Qudra assures journalists that the figures that he disseminates are accurate and objective. However, in practice they create the distinct impression that Israel harms civilians and ignores terrorist operatives, and thus they are used as **powerful “weapons” in the propaganda campaign of Hamas and its supporters** (the names and organizational affiliation of terrorist operatives are now starting to be revealed in the examination carried out by the ITIC).

13. **It is very difficult, and almost impossible, to refute** the names and number of fatalities that reach the media, the UN and human rights organizations, **within a short time**. This is because an examination on an individual basis requires time and effort and meets with attempts at concealment and deception on the part of Hamas. This is manifested in the reports of the Palestinian news agency Ma'an and AFP, which believe that the lists distributed by the Palestinian Health Ministry cannot be examined independently: "With numbers rising so quickly, sometimes by 100 deaths per day, **it would be an impossible task to independently verify every casualty ...**" (maannews.net; AFP, July 27, 2014).

⁴ Evidence of attempts to blur the military trappings among the dead terrorist operatives can be found in a report on the French TV channel **France 24** (July 27, 2014). The report showed the evacuation of casualties from beneath the rubble of a house. One of those evacuated was a military operative in uniform and armed with a rifle, who looked dead. The announcer said that "his rifle was quickly hidden from our cameras." A local Palestinian citizen, who received the rifle that had belonged to the dead man, was shown handing it to another person and saying, "Take this and hide it."

Appendices

14. This document includes three appendices:

- a. **Appendix A:** Table presenting the findings of the examination of a list of 150 names of those killed in Operation Protective Edge, based on the Palestinian Health Ministry's lists (the next 150 names, in their order of appearance on the list, further to the previous document).
- b. **Appendix B:** Photos of 39 terrorist operatives out of 71 operatives who appear on the Palestinian Health Ministry's list.
- c. **Appendix C:** List in Arabic of the next 150 names published by the Palestinian Health Ministry (further to the previous list that we published).

Appendix A

Findings of the examination of the list of 150 names of those killed in Operation Protective Edge, based on the Palestinian Health Ministry's list⁵

No.	Name, age, place of residence	Date and circumstances of death	Involvement in terrorism	Remarks
151	Anas Alaa Subhi al-Batsh, 10, Gaza.	Killed in the attack on the home of the Al-Batsh family in the Shejaiya neighborhood in eastern Gaza, July 12, 2014.	Non-involved	
152	Qusay Alaa Subhi al-Batsh, Gaza.		Non-involved	
153	Rami Sami Ahmad Abu Shanab, 25, Deir al-Balah.	Wounded two days previously in the attack on the home of the Abu Muzayyed family in Deir al-Balah, July 13, 2014.	Apparently a terrorist operative in the Izz al-Din al-Qassam Brigades.	See photo in Appendix B.
154	Khoula Mohammed Sirhan al-Khawajri,	Killed in the attack on the home of the	Non-involved	

⁵ Further to our previous document; based on the next 150 names in their order of appearance on the Palestinian Health Ministry's list (See Appendix C).

	25, Nusseirat.	Khalifa family, Nusseirat.		
155	Mohammed Ghazi Mohammed Arif, 35, Gaza.		Unidentified	
156	Ghazi Mustafa Arif, 62, Gaza.		Non-involved
