

Program on Israeli TV Channel i24 Based on an ITIC Study of the Palestinians Killed in Operation Guardian of the Walls

- ▶ On August 1, 2021, channel i24 broadcast a program about the distribution of Palestinian fatalities in Operation Guardian of the Walls and the number found to be terrorist operatives. The program was based on a study carried out by the Intelligence and Terrorism Information Center (ITIC) and published on its website. The study identified the percentage of Gazans killed who were terrorist operatives. Interviewed for the program were the ITIC's current director and researchers, who discussed the sources and methodology used in the study.
